BROOKLYN ITEMS.

The funeral service of the late FREEMAN HUNT, esq., will take place at his residence, corner of Presi dent and Clinton streets, on Friday, the 5th inst., at 12 o'clock. His remains will be conveyed to Quincy,

The Hon. George Hall has recently entered into the enjoyment of a beautiful dwelling-house, presented to bac by the citizens of Brooklyn, as a testimonial of their admiration and gratitude for his untiring, efficient and perilous exertions as Mayor of the city, during the prevance of the yellow fever in its neighborhood and at Fort Hamilton, in 1856.

ATTEMPTED RAPE.-A dry-goods dealer named Michael Maxwell, doing business in Grand street, be-tween Second and Third streets, was arrested yesterday afternoon by Officer Guischard, charged with having attempted to commit a rape upon a girl nine years of age named Ella E. Swanton. The affidavit was made before Justice Allen by the father of the girl, J. H. Swaaton, residing corner of Grand and Third streets, and the offense is alleged to have been attempted on the 27th of February at Maxwell's store, where the girl had been sent on an errand. Accused gave \$1,900 hail to appear for examination.

Tun Counts .- The Brooklyn Court of Sessions yesterday morning adjourned sine die, there being no siness ready for the Court.

The Court of Oyer and Terminer commences on Tuesday, when a Grand Jury will be impanneled. The March Term of the City Court meets on Menby, when the civil calendar will be taken up.

CHURCH FAIR .- The ladies of the Park Prosby terian Church held a fair at the church in aid of the expenses incurred in building an extension to their chapel. The fair was concluded Wednesday evening. yield \$400 above expenses. The festival las-was well attended, and the exercises inter-

FIRE DEFARTMENT MATTERS.—Last evening two Eggineers, Foremen, and Assistant Foremen of the Fire Department, Eastern District, held a meeting at their hall in South Second street, for the purpose of sominating a candidate for Chief Engineer, to be voted for in April. There were five candidates presented, but a majority of all the votes cast being necessary, the Board finally adjourned the matter for two weeks. The following is the result of the fifth ballot: C. C. Talbot (present incumbant), It votes; Hamilton Allen, Assistant Engineer, 17; Wm. Jenings, Assistant Engineer, 5; Thos. Doyle of No. 12 Engine Company, 4; David Lindsay of No. 4 Engine Company, 6.

Died in the Street.—Alexander Fernimann, a German, who kept a greecry at No. 116 Ridge street, New-York, dropped dead on the sidewalk yesterday afternoon about 6 o'clock, at the corner of Second and North First streets. Corner Snell held an inquest, and the Jury rendered a verdict of death by disease of the the heart. Deceased was about 10 years of

FATAL ACCIDENT.—On Tuesday last, a child, three years old, named Agnes Upon, residing at No. 44 Borth Fifth street, was severely burned by her clothes taking fire from the stove. An older sister, and years old, was present at the time, and extinguished the flames with a broom which she dipped in water. The injuries to the child were internal, and caused her death yesterday. Coroner Cozine held an inquest, when a verdict of death from burns was rendared.

DUPRIEME COURT—Service. The Manh 4.—Before Jodge Ikonaman.

Janet Hamilton, by her next friend, agt. Frederick Lomay.

The defendant in this suit has been discharged from arrest by Recorder Barnard. He was imprisered on a criminal proceeding for the aduction of Miss Hamilton. Subsequently he was arrested in the present suit, which he activit atom for seduction under promise of marriage.

On Thursday his counsel moved that he be discharged from arrest in this said. The defendant, it is alleged, is only 17 years old, and herefore not able. In law, to make a marriage contract, and not Emble for its breach. It is farther claimed that the plaintiff is 22 years old, and consequently not entitled to sae for her seduction, that right being given only to the parents of minor dandshors who are seduced. The Judge took the papers and reserved his decision.

officer tapped the complainant a few times lightly on the wrist with his club. This was the substance of the evidence, upon which the Jury unbestatingly rendered a vential of acquittat.

John Taylor pleaded guilty to burgiary in the forth drares, and was renamed for sentence.

John Hankel was then placed on trial, indicted for tapp, in November last, on Amelia Eckel, Teath avenue and Twenty-mint street. The evidence dischard an unquestion able looseness of character on the part of the complainant and the allegation of the prosecution in other respects, was thrown in such confusion by the preventionater of the prosecutive, as to involve the entire indictance in great draft. I pan which the Jury very readily returned a verdict of not arity.

Jos. W. Watson, a clerk at Stuart's store, pleaded quilty to an attempt at grand known from his capitayers. Sentence deferred.

Catharine Carroll also pleaded with a standard control of the capitayers.

-It is feared that Dr. Leichardt, the Austrian traveler, has shared the fate of Sir John Franklin. Four thousand five hundred pounds have, however, been voted by the Legislature of New-South Wales for the expenses of the proposed expedition to search for him. Dr. Gregory has volunteered to conduct it, and be entertains some hope that a statement made by a convict, that Dr. Leichardt is a prisoner in the hands of a tribe of northern aborigines, may be true.

-It is said that "The Cacen of the Red Chessmen," in the February number of The Atlantic Monthly, was written by Miss Hale, a daughter of Mr. Nathaniel Hale of The Boston Advertiser.

A NEGRO STARVED TO DEATH .- A negre named Redman was found dead yesterday afternoon in a subcellar of the large tenement house in the rear of No. 19 Mulberry street. The body was shockingly mutilated, a portion of the head and face having been eaten by huge rate, which were with difficulty driven away from the corpse. Redman is believed to have died literally of starvation. In his wretched abode, which since the death of his wife a few weeks since, he occupied alone, there was found neither fuel nor food of any kind, and scarcely a piece of furniture.

Redman formerly worked along shore, but for some time past was anable to procure employment of any kind, and lately he became with. In consequence he suffered greatly. He was seen on Sunday descending to his subterranean abode. He appeared ill, and remarked to one of his neighbors, nearly all of whom are poor colored people, that he felt very bad. He was never seen alive afterward. He was about 40 years of age. An inquest will be held to-day. The bedy meantime remains where it was found.

A FUNNY ADMINISTRATION BLUNDER.—The people of Minnesota are making merry over a little pedding, characteristic operation of Mr. Thompson, Secretary of the Interior. This Cabinet officer, it seems, had heard something affecting the political soundness of a certain Col. Nobics, who has command of the South Pass Wagon Road expedition, out among the Bacotah Indians. Of course, one of Mr. Buchanan's adviser could not allow such a runor to go unnoticed, and so he hastened to write to the Administration white at St. Paul incursing if it was true, as reported, that he nastened to write to the Administration witter at St. Paul, inquiring if it was true, as reported, that Col. Nobles had, in previous years, "made Absidition specches in Himsesta," and plainly intimating that if the Department was satisfied of "the truth of the allegations," the offender would have to walk the

ank. It so happened, however, that instead of directing It so happened, however, that instead of directing this missive of his "inquiring mind" to the editor of The Pieneer, he sent it to the editor of that strong Republican paper, The Times. But the latter bet no time in replying; gave Col. Nobles an excellent character as a public officer, admitted that he had once believed in that string of "glittering generalities," the Declaration of Independence, but affirmed that he was now a coolink supporter of the President. The next heard for the matter was, that Col. Nobles had been discussed from office without notice to him. The heard of the matter was, that the Nobles has dismissed from office, without notice to aim. The former belief in the Declaration of Independence was supposed to have settled Col. Nobles's fate. But the sequel is searcely less humilisting to the Secretary of the Interior, than his former act was disgreeful. executed on him, the case was investigated, and afre a fair trial the accused was found to be entirely inno-cent. He was thereupon reinstated. [Boston Journal.

Tuenspay, March 4-P. M. The stock list shows a diminished amount of business for the day, though still quite large. The intense excitement of Monday could hardly be expected to last: but it is certainly astonishing to witness the sustaining and absorbing capacity of the market-and it seems almost an impossibility to break down prices seriously, even after the most rapid and feverish advances. At the first Board, prices upon the whole were better, and in some of the leading stocks there was considerable activity. Canton had especial prominence, selling to the extent of 2,400 shares, and up to 261 during the call, though afterward a fraction lower. New-York Certral advanced to 94, but was freely supplied at 93% at the close. Erie was firmer, but not so active as usual. Hudson River advanced to 36%, and was quite strong throughout the call. Reading was one of the strongest stocks on the list -a leading operator buying largely on time, and giving a strong impulse to the market. Galena better, and advanced to 24; the new report con-

veying a very favorable impression, and rendering it certain that regular and handsome dividends will be paid from and after August next. The road has been doing a much larger freight business in February, we anderstand-its equipment being fully employed during the month. Rock Island advanced to 89; but was a little lower at the close of the call. The business of February will show a slight increase; but the eaving of expense has been large in the more economical management of the road, and its exemption from the snow and ice obstructions of last year. The road suffered also a lose of \$150,000 last year from severe freshets during the month of February-a trouble which it has not thus far been obliged to contend against during the present Winter. Toledo was active, selling up to 554, but losing strength a little at the close. Michigan Central was firm at 75 with rather more transactions than usual. This road, we understand, has made a saving of \$50,000 per month in its expenses during the Winter. Michigan Southern was a fraction higher at opening sales, but a little heavy, before passing from the stock. The Preferred was in demand with an improving tendency. Panama was inactive, but a trifle better. Cary Improvement had considerable attention, and seems to be working its way into the field of speculation quite as fast as its friends could desire; the sales were at 91, an advance of & from yesterday's prices. In the after noon there was a decidedly retrograde movement throughout the list, commencing with New-York Central which dropped to 922-one of its leading supporters having sold 1,000 shares in a single lot between the Boards. Eric fell to 321, and for Hudson River, Reading, Toledo, Rock Island and other leading shares, there was a corresponding decline. It is difficult to account for the difference of feeling displayed in transactions at the two Boards-not an item of news which could possibly exercise an influence upon the stock market having transpired. We are led, therefore, to the concluion that the fall was one of those impulsive reactions except upon general principles. Bond transactions during the day have not been large, but the market is very steady, and has still an improving tendency for well esteemed securities. The largest business today was in State bonds, of which Missouris were decidedly the most active. California 7s continue to advance, improving I & cent. City Bonds continue in demand, but mostly in outside trade. We hear of sales of \$15,000 Chicago 7s at from 6 to 98, during the day. La Crosse and Milwankee Land Grants declined to 354, but were not pressed for sale. An impression seems to prevail that the La Crosse road stands in danger of losing its land grant in the course of the investigation now going on in the Wisconsin Legislature. This, we understand, is an error, so far as the land covered by the present issue of bonds is concerned. A letter received here from Governor Kamlall states in express terms that no such measure is proposed, nor would it, in fact, be in the power of the Legislature to interfere with that portion of the grant over which the road has already been built, and for which the Company has already re-ceived it certificates. The action of the Legislature will be confined to that portion of the land grant from the jurgation to St. Paul, which has not yet bee

commenced. There are a few transactions being made in foreign Exchange, and the tendency of quotations is downward. Sterling is Sell P cent: France, 5.20 65.15. Freights are s.ill essentially unaftered. To Liverpoot, 378 bbls, Piour, at 1s. 21.; 30,000 bush. Grain, at 1]d. in bulk and 5d. in bags. 125 bbls. Pork, at 2s. 41d.; 3,591 bbls. Rosin, at 2s. To Bremen, 200 bales Cotton, at je. To Rotterdam, 18 hhds. Tobacco. at 27s. 6d.; 200 bbls. Rosin, at 3s.

The business of the Sub-Treasury was: Receipts, \$115,206 84-from Customs \$43,006; Payments, \$78,-703 49; Balance, \$3,188,085 18.

The Morey market presents the same features of superabusciant supply and slack demand as noted in our reports of late. The Banks are still gathering in surplus resources, and find quite as much difficulty in employing all of their means as heretofore. In poin of fact, the idleness of capital which now prevails has seldom been equaled, although discount rates have ruled at lower figures than are now quoted. The quotations in the open market for paper of the highest grade range from 6 to 7 & cent, with a scarcity in the supply of notes. Good single names sell up to 8, 9 and 10 P cent. On call, money is offered freely to strong houses at 5 P cent, and in some instances loans are reported as low as 4.

The market is steady for Treasury Notes at [44], and they are not plenty. The amount paid at the Custom-House yesterlay was only \$14,000. The City of Washington took \$7,500 in specie to-day. The busines, of the Clearing-House to-day was \$22,080,000. the larges, amount since 7th Sept. last. The activity in stocks is the main cause of this increased movement at the Clearing-House. Last year at this timehe clearings were about \$50,000,000. The Metropoliton Certificates are reduced to-day \$100,000. Mesers. Willets & Co., who partially suspended last October, tave resumed payment in fall. We are informed they

continue their business as neual, with an undiminished capital of \$1,000,000. The movement for the suppression of the payment of interest on deposite by the Banks has not been abandoned although three of these is stitutions still refuse to join the agreement. A meeting of the Clearing-House is called for to-marrow by Wm. A. Booth, J. E. Williams, E. W. Dunham and Parker Handy, Committee, for the purpose of hearing a report on the subject, and to hold a consultation. It is thought that the recusants can yet be reasoned into joining in the movement. The report will be a very long one, and go thoroughly into the argument against the practice. A large offering of fine Carpetings, of the production of the New-England Worsted Company (lately sold by Messrs. Lawrence, Stone & Co.), was made at auction to day. The goods were attractive, and fine carpets being i moderate supply, with an advancing tendency from late low rates, the attendance of buyers was large and the bidding spirited, mostly from Western houses. The A X Velvets, which were held last year at \$1 55, private sale terms being now about 15 * cent lower, brought prices ranging from \$1 25 to \$1 324. The B X Velvets formerly held at \$1 45, opened at \$1 100 \$1 20. The sale this far is good, and is admirably conducted by Mr. Spicer. The Mattings offered were eargo mattings, and brought about their value. The

Carpets are still selling.
At a meeting of the stockhelders of the New-York Corn Exchange, held on the 1st inst., the following named gentlemen were elected as Trustees: David Dows, Isaac T. Frost, Jacob B. Herrick, William H. Newman, John B. Wright, Edward Hincken, Jesse Hoyt, Josish M. Fiske, Edward Cromwell, James P. Wallace, Jacob R. Nevius, Baldwin N. Fox, Nason B. Collins. The Board of Trustees organized for the ensuing year by electing the following officers and committees: President, David Dows; Vice-President, John B. Wright: Treasurer, Isaac T. Frost; Sccretary, Edward Hincken; Finance Committee, Jacob B. Herrick, Jesse Hoyt, James P. Wallace; Building Committee, Josiah M. Fiske, Baldwin N. Fox. John B Wright Arbitration Committee, John J. There are no fancy silks remaining in importers hands, There is, however, a fair supply in second hands, who break bulk and distribute to retailers. The importations were rather larger last week tailers. The importations were rather larger last week than they have been, but still are very light. The demand for desirable styles of goods is active. The sales, however, are chiefly to the near-by trade, which commands the greatest confidence. It is expected by many that the later trade of the season will be better than the early; and should an early opening of navigation take place, as at present seems to promise, this expectation may be realized.

"Prices of most kinds of goods are advancing, and those jobters who bought largely during the depression are reaping a good harvest. the absence of all desire to force sales by giving pro-lorged credits, as well as to refuse any concession in prices for either cash or credit. As things have long ago reached their worst point, as regards the mass of consumers, there must be some improvement in the extent of consumption; and every accession of money income to the consumer will be felt speedily in the Dry Goods market."

o'clock, at the Merchants' Exchange. The California emigration, stimulated by the reduc tion in fare, is enormous. The Moses Taylor and St. Louis are, we understand, full, and the Northern Light nearly full. The price of passage is reduced to \$50 for steerage, \$75 for second cabin, and \$150 for first cabin.

The Northern Light, we believe, takes steerage passengers as low as \$40, which leaves only \$15 for the fare on both oceans. It's supposed that in the aggregate nearly 2,000 passengers will pass over the Panama Railroad from these three boats. The Imports at this port for the three months of December, January and February last are \$26,511,000,

sgainst \$56,546,000 same months of 1856-57. The exports for the same months were \$29,453,000, against 24,739,000. The apparent balance in our favor on the commerce of these months is \$34,849,000, as compared with the same months of 1856-57.
